

# 9<sup>th</sup> International Congress of Vertebrate Morphology

26<sup>th</sup> to 31<sup>st</sup> July 2010  
 Conrad Hotel & Spa  
 Punta del Este  
 Uruguay

<http://icvm-9.edu.uy>

## REGISTRATION FEES:

Regular USD 300

Students USD 150

Prior to November 1st

Regular USD 220

Students USD 100

### Plenary speakers:

Arkhat Abzhanov (Harvard, USA)

Melina Hale (Chicago, USA)

Gabriel Marroig (USP, Brazil)

Eugenia del Pino (PUC, Ecuador)

Peter Wainwright (Davis, USA)

### Symposia

- Evolution and development of the vertebrate ear
- Form and function in the Xenarthra
- Life history effects on development and morphology in amphibians
- Gigantism in terrestrial vertebrates
- Generation of morphological diversity vertebrate: jaw evolution
- Grasping in tetrapods
- Workshop: Three dimensional X-ray motion analysis
- Limitations of computational reconstructions: musculoskeletal evolution
- Specializations for foetal nutrition in viviparous vertebrates: Functional morphology and evolution
- Evolutionary morphology of the vocal apparatus
- Evolution and development of the lateral plate
- Morphology, evolution and development of cerebellum-like structures

International Society of  
 Vertebrate Morphologists
